

Research Washing & Decontamination Solutions

Busy research facilities require reliable, flexible and easy decontamination equipment to ensure the integrity of the results from critical research. STERIS Life Sciences provide a wide range of washing and sterilization solutions to accommodate various types of laboratory and research applications.

STERIS's process and research solutions encompass a full portfolio of equipment, formulated chemistries and services. Our automated systems are enhanced by a host of accessories to adapt them for a variety of pharmaceutical or laboratory applications. In addition, dosing and delivery systems are incorporated to assure the most efficient and effective use of our precisely formulated cleaning chemistries. Every system is backed by support from professional service technicians worldwide. From facility planning through installation, validation and ongoing operational support, we will partner with you to maximize uptime and the operational life of your equipment.

LABORATORY WASHING/DRYING

Designed to provide flexibility and superior cleaning and drying efficacy.

STERIS washing/drying equipment is optimized to meet your varying laboratory needs. For smaller, de-centralized laboratory glassware washing facilities, the Reliance 100 Series and 300XLS are ideal. While the Reliance 400XLS and 500XLS are best suited for larger or centralized laboratory glassware washing facilities. There are additional features that the Reliance 400XLS and 500XLS washers can be equipped with, including:

- A Universal Shelving System for maximum productivity and loading flexibility
- Various water saving and energy recovering systems
- Non-recirculated final rinse for optimal rinsing efficacy
- Process monitoring system to ensure the integrity of the cleaning process

STEAM STERILIZATION

Built for fast and efficient sterilization of heat and moisture stable materials.

STERIS offers steam sterilizers which are designed to meet the needs of the laboratories, including:

- The FINN-AQUA GLP Research Steam Sterilizers are especially designed for BSL-3 and 4 laboratories as well as other types of high containment facilities. The units can be equipped with an air differential seal or bioseal, along with a decontamination cycle. These sterilizers have several features to reduce energy consumption, provide flexibility, ease of use and maintenance as well as to ensure safety and reliability with service access only from the front side of the unit.
- AMSCO 110-250LS Small Sterilizers have a compact footprint and utilize sustainable STERI-Green Water Conservation technologies

LOW TEMPERATURE BIODECONTAMINATION SYSTEMS

From routine bioburden reduction to rapid response for an unplanned event, STERIS offers proven VHP solutions for your biodecontamination needs.

With its high output, short cycle time, and ease of operation, the VHP VICTORY™ Biodecontamination Unit establishes the industry standard for room and facility biodecontamination. In addition, the VHP X10™ solution offers fast, economical Biodecontamination of biological safety cabinets.

VH2O2 STERILITY ASSURANCE PRODUCTS

- Vaprox® Hydrogen Peroxide Sterilant is a specially formulated hydrogen peroxide chemistry which drives the efficacy and performance of STERIS's patented VHP process technology.
- Steraffirm® VH2O2 Chemical Indicators and Spordex® VH2O2 Biological Indicators and Media both aid in validation and routine monitoring of biodecontamination applications.

EQUIPMENT SERVICES

Your business is unique and that's why we offer a wide variety of services that can be customized to meet your specific needs. By choosing one of our service plans, our field technician team will collaborate directly with your local team to ensure your critical needs are met.

- Maintenance Agreements
- Installation & Start-up
- Validation & Training
- Biodecontamination
- OEM Parts & Upgrades

STERIS Life Sciences

For over 100 years, STERIS has been known as a global leader, trusted partner and solutions provider in the field of sterilization and contamination control. Today, STERIS continues building on this heritage by advancing the Science of sterilization, cleaning and infection control while offering Solutions that meet our Customers' needs and high standards. STERIS is dedicated to helping you enhance the Life of your patients and the life of your equipment. From Formulated Chemistries, to Capital Equipment, and to Parts and Services, STERIS Life Sciences is your Solutions provider.
